

## REMARKS

### Broadening Reissue

Applicant respectfully request reissue of the patent with broadening claims presented herein. The present reissue application is filed within two years from the grant of the patent.

### Summary of the Reissue Claims

Claims 95 and 96 have been added.

### Statement of Support for Reissue Claims

New claims 95 and 96 omit, in part, the recitations of “agent” and “identifying indicia”. The support for the broadened claim is similar to the support for the issued claims, even with the specific recitations omitted.

Applicant respectfully submits that the new claims are broader in scope in certain respect and narrower in others vis-à-vis claims canceled from the original application.

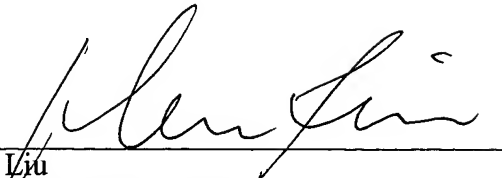

### Conclusion

In view of all the foregoing, Applicant submits that the claims pending in this reissue application are patentable and are in condition for allowance. Such action at an early date is earnestly solicited.

In the interest of forwarding the case to allowance without unnecessary delays, the Examiner is invited to call the undersigned representative to discuss any outstanding issues that may not have been adequately addressed in this letter.

Respectfully submitted,

Dated: October 9, 2003
